# HEALTHCARE SOLUTIONS
Designing with Empathy, Built for Precision

Formeta Website - Healthcare Solutions Section 🔗

Case Samples

In healthcare, design is not just about usability. It is about trust, clarity, and patient safety. At Formeta Design, we collaborate with healthtech companies to create medical products and systems that are intuitive, compliant, and carefully engineered for both patients and professionals.

What We Do in Healthcare Solutions:

- Medical Product and Device Design
- Human-Centered Clinical UX/UI
- Sterile and Safe Material Integration
- Assistive and Mobility Equipment Design
- Diagnostic Tools and Monitoring Systems
- Regulatory-Focused Design Documentation

INFANT TAG
Smart Safety System for Newborn Identity and Tracking

Infant Tag is a digital wristband system designed to improve newborn safety in hospitals. Through integrated RFID tracking and alert protocols, it ensures accurate baby–parent matching and secure movement within hospital wards.

Formeta led the entire development process, combining intuitive physical design, a patient-safe material strategy, and seamless digital integration.

Status: In Production

"When lives are at stake, design must speak clearly and act instantly.

Our role is to make sure that no moment or motion is wasted."

Let's collaborate!
