#### **A Child-Proof Oven Concept with Built-in Safety Mechanism**

SafeLock reimagines the built-in oven through the lens of family safety.

Through its rotating handle and integrated locking system, it prevents accidental opening at child height while maintaining a seamless aesthetic.

Designed entirely by Formeta, from early concept sketches to final production detailing.

**Status:** Ready for Production

*“Design for the home must be invisible in function, yet unforgettable in feeling.”*

*Our goal is to create products that blend in until they protect, support, and elevate.”*
