

Enterprise-ready industrial design and product development

Reliable delivery. Supplier-ready outputs. Clear governance.

Selected as one of the Top 100 Design Studios Worldwide

Formeta Design is an industrial design and product development partner helping organizations build manufacturable physical and digital products. We work with cross-functional teams to deliver design outcomes that are ready for engineering, sourcing, and production.

Why enterprise teams work with us:

- **Predictable delivery**
Structured phases, milestones, and clear outputs. Fewer surprises.
- **Stakeholder alignment**
We help reduce decision friction across Product, Engineering, Marketing, and external suppliers.
- **Manufacturing-ready design**
Design for manufacturability with real-world constraints in mind.
- **Supplier-ready documentation**
Clear handoff packages that support sourcing and implementation.
- **Confidentiality-first engagement**
NDA-first process and controlled communication.

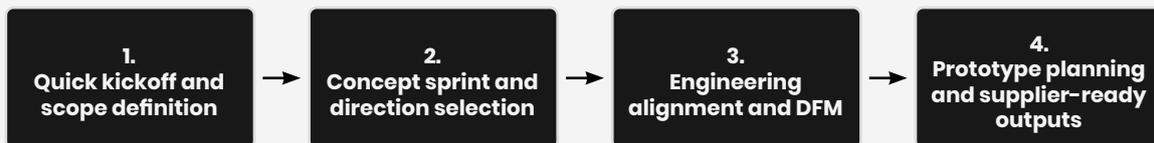

Delivery Capabilities:

- Product and System Design
- Design for Manufacturability
- Documentation and Supplier-ready Handoff
- Prototyping and Pilot Production Support
- Strategy and Vision-led Concept Development
- CMF and Form Language Development

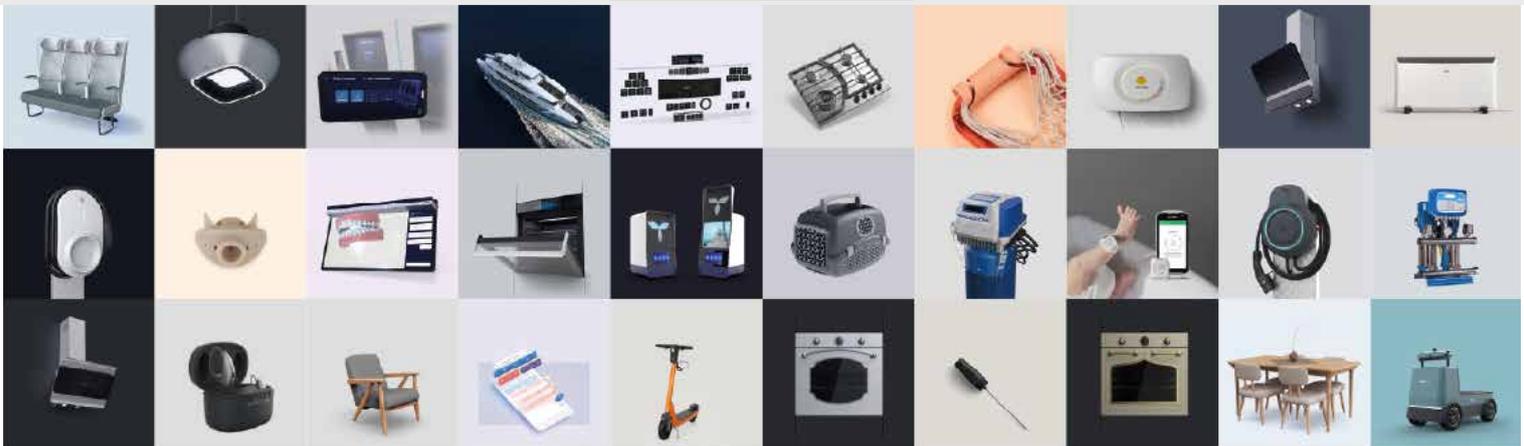

Engagement Models:

- Project-based delivery
- Retainer model for continuous design support
- Dedicated team for multi-stream programs
