

Fast product design for teams that move quickly

From idea to manufacturable prototype. Without wasting time.

Selected as one of the Top 100 Design Studios Worldwide

Formeta Design helps startups and product teams turn ideas into elegant, manufacturable products. We move fast, stay practical, and deliver outputs your engineers and suppliers can build.

What You Get:

- **Speed with structure**

We move quickly without breaking the process. Clear phases, clear deliverables.

- **Less iteration chaos**

We design with constraints in mind, so you do not get stuck in endless revisions.

- **Prototype-ready outcomes**

From concept to prototype planning. Built for real-world testing and investor demos.

- **Manufacturability mindset**

We help you avoid costly mistakes before you enter sourcing and tooling.

- **Clear communication**

Simple updates, fast decisions, no unnecessary meetings.

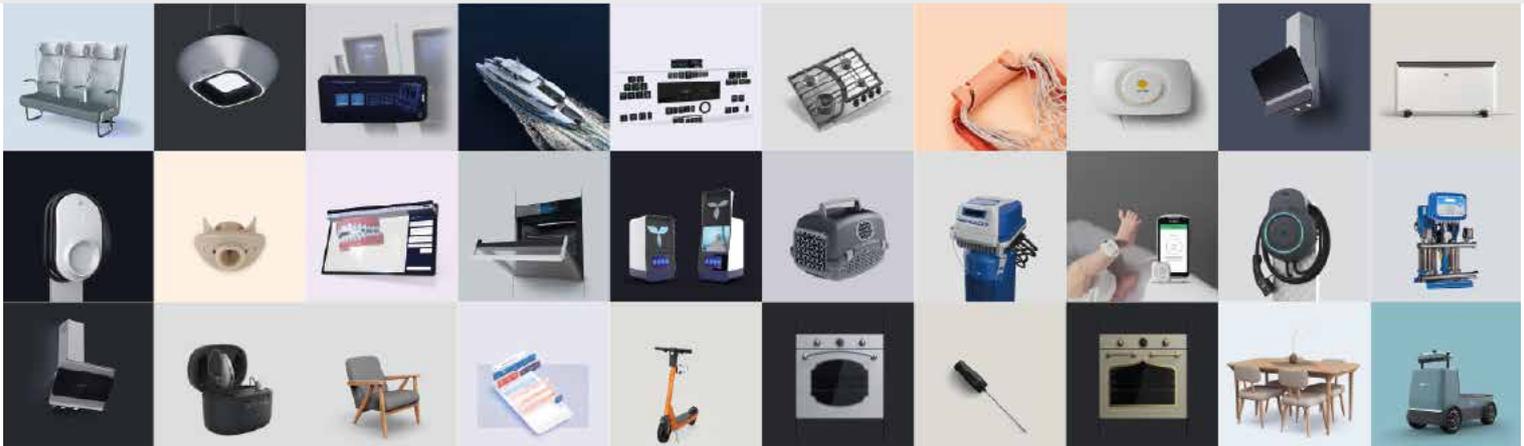

What We Do:

- Industrial Design and Product Development
- Design for Manufacturability
- Prototyping and Pilot Production Support
- Strategy and Concept Development
- CMF and Brand-driven Form Language
- Hardware plus Digital UX integration

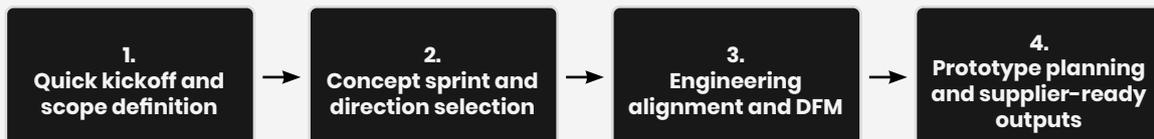

Best for:

- Hardware startups building MVPs
- Teams preparing for fundraising or production
- Founders who need reliable design execution
- Companies outsourcing industrial design and UX

Selected Works

How it works

Setup is fast and the process stays simple.

Let's collaborate!
