

Industrial Design Handoff (Design Intent Package)

Design intent, aesthetics, ergonomics and brand integrity prepared for engineering and supplier kickoff.

Purpose

Provide a complete industrial design intent package so engineering + supplier teams can execute without ambiguity.

Delivered via Designlogger

All files are delivered, versioned and approved via Designlogger (CORE Delivery Standard).

A) Design Intent Outputs

- Final design intent renders (key views)
- Detail views (interfaces, seams, joints, transitions)
- Exploded view (assembly intent & part breakup logic)
- Design rationale: what must NOT change

B) Form Development Pack

- Form iterations + final selection rationale
- Proportion & landmark dimensions (ID-level)
- Key ergonomic touchpoints / interaction zones (if applicable)

C) CMF Specification (if included in scope)

- Material / finish / texture specs
- Color references (RAL / Pantone / HEX) + tolerance notes
- Surface quality notes (gloss, grain direction, coating notes)
- Branding placement notes (logo, markings, regulatory labels)

D) Manufacturing Constraints (ID-level)

- Draft / parting assumptions (high level)
- Seam strategy + aesthetic risk areas
- “Do / Don’t list” for suppliers to protect design integrity

E) Final Handoff Package

- Design intent PDF export
- Asset pack: renders, drawings, source files
- Final “Approved Design Intent” sign-off in Designlogger

Let's collaborate!
